

Company presentation

For trade and services

ALSTEK d.o.o., Subotica, Serbia

Is a small family company established four years ago. Our mission is to supply products of several well known companies to the market of Middle East and Africa. We are joining experience of elders and enthusiasm of the young. We do our best to make our customers satisfied.

We take things personally!

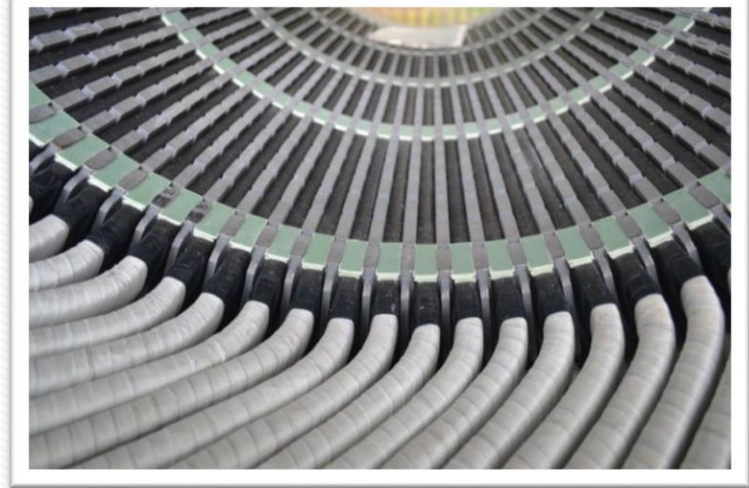

Program

- Electric motors
- Pumps
- Gear boxes
- Measuring instruments

Electric Motors

- Three phase induction motors
- Low Voltage all sizes up to 2 MW, IC411, IC611 and IC511
- Middle voltage squirrel cage up to 25 MW, slipring up to 3,5 MW IC511, IC611 and IC411 up to 2 MW
- Ex-proof motors up to 10 MW
- Mounting IMB3, IMV1 and others
- Special oil rigs motors up to 1,2 MW
- Custom made motors

Electric Motors

Electric Motors

Pumps

- Double-suction, split-cased centrifugal pumps
for clean water up to 80 degrees
- Inclined shaft pumps (40-45 degrees)
- Axial flow pumps (adjustable blades)
For large drainage and irrigation
- Mixed flow pumps
For power stations, industrial plants
- Multi stage pumps

Pumps

Pumps

Gear Boxes

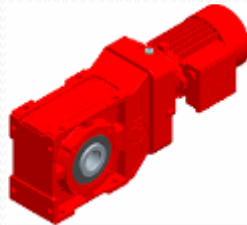

- Helical gear units **EZ, DZ, TZ**, $i=1.33$ – 10109, $M_{t2}=230$ – 19000 Nm
- Planetary gear units, $i=3.4$ – 2000, $M_{t2}=150$ – 14000 Nm
- Worm gear units **GMP**, $i=7$ – 120, $M_{t2}=80$ – 4300 Nm
- Double worm gear units **DGMP**, $i=120$ – 13440, $M_{t2}=120$ -6000 Nm
- Helical worm gear units **GMZP**, $i=13.3$ – 206, $M_{t2}=120$ – 4300 Nm
- Flexible couplings, $M_{tmax}=150$ – 18000 Nm

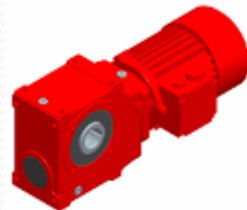

Gear Boxes

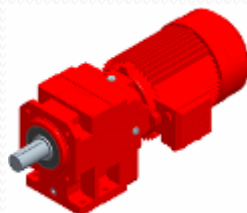

- Parallel shaft helical gear units **FG**,
 $i=3 - 8700$, $M_{t2}=210 - 14500$ Nm

- Helical bevel gear units **KG**,
 $i=5 - 8700$, $M_{t2}=95 - 20000$ Nm

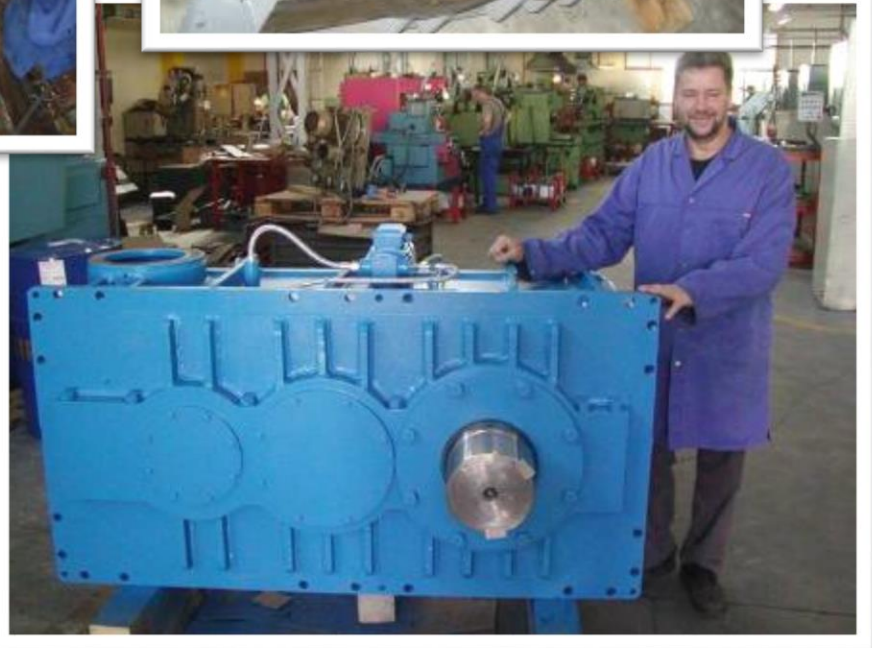

- Helical worm gear units **SG**,
 $i=3 - 3420$, $M_{t2}=50 - 1350$ Nm

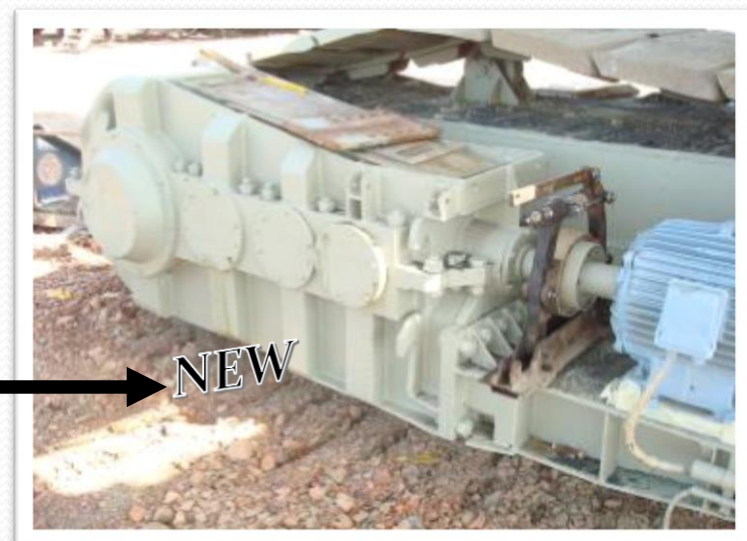

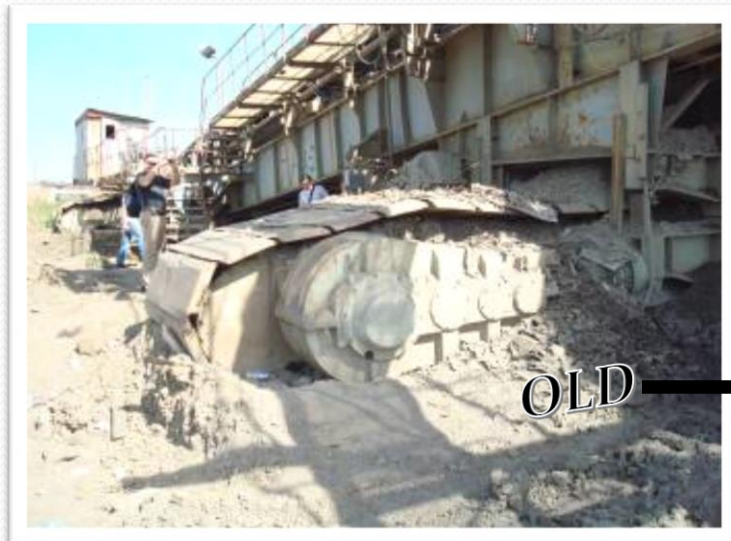

- Helical gear units **HG**,
 $i=3 - 8700$, $M_{t2}=95 - 20000$ Nm

Complete Power Transmission Engineering

Custom made replicas

Measuring Instruments

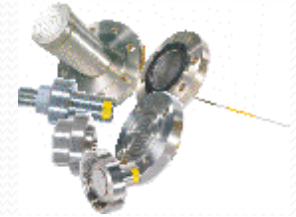

- Devices for pressure measurement or level measurement in open tank

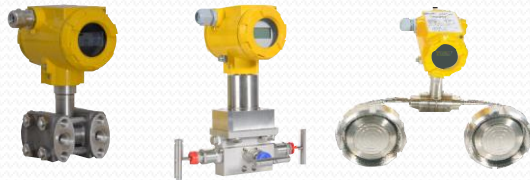

- Devices for flow measurement

- Diaphragm seals

- Devices for measurement of difference pressure or level in pressure tanks

- Display, digital indicators, data loggers

- Valves

- Hydrostatic level probe

- Temperature sensors and transmitters

- Electropneumatic positioner
